JACOB TOWNSEND,
ORIGINAL DISCOVERER OF THE
Townsend Sarsaparilla.

Townsend is now about 70 years of age and known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA. Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many nevertheless as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and

HEALING POWER

Many years ago that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means should be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come the means are

UNEQUALLED PREPARATION
manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration.

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared on scientific principles by a scientific man. The highest knowledge of chemistry, and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce fermentation and acid which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation if they are not preserved by a scientific process known only to those experienced in its manufacture. Moreover these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP. But such is not the article known as the

OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or of fermentation is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA and LIVER COMPLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES, and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from indigestion, from acidity of the stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Coughs and Colds, and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS,

It works wonders in cases of Fluor Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menstrual periods and the like; and is effectual in curing all the forms of Kidney Diseases.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other diseases, as Spinal irritation, Neuralgia, St Vitus Dance, Swooning, Epileptic Fits, Convulsions, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then

the medicine you pre-eminently need?

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES; souring, fermenting, and blowing the bottles containing it into fragments; the sour acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischief it produces? flatulence, heartburn, palpitation of the heart, liver complaint, diarrhoea, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND!

and yet he would fain have it understood that Old Dr Jacob Townsend's Genuine Original Sarsaparilla, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's article! and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S P Townsend's FERMENTING COMPOUND.

We wish it understood, because it is the absolute truth, that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S P Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS, should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken, and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

It also removes pain and [illegible] in the head and is a sovereign remedy for all diseases of the scalp. It gives the Hair a brilliant, glossy lustre, a silken texture and a [illegible] by vigorous appearance. No Lady's toilet can be complete without this indispensable article

RECOMMENDATION

[Certificate of Dr. Perry, Portsmouth, N H]

Portsmouth Sept 29 1849

Mr J P Morse, Agent for "White's Hair Restorative"

Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several years ago, after a severe fit of sickness, my wife lost all of her hair, the scalp appeared dried and hard, the hair grew out brash and uneven. About a year ago, by another fit of sickness, she lost all her hair a second time, and for a long time there was apparently no action in the scalp. After various applications I was induced to try the above mentioned Restorative, and now after the use of a few bottles her hair has grown out as thick, as lustrous and as beautiful a color as ever. Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head and I have found it the best external remedy I have ever tried. I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen

McKENNEY'S
COSSACK SALVE!!
An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the "most effectual" and "certain cures" for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty 'puffing of the Press,' or the "bought certificates" of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely voluntary and unsolicited

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties. To say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr A M McKenny, and continued its application until I had used six bottles which entirely cured me, and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 oz of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months,

BANGOR, June 5, 1846.

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction that it was an invaluable article. I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle, and found it equally beneficial. It can truly be called the All-Healing Salve.

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured, persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony

We, the undersigned, have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6,000 feet of boards to any uniform thickness in one hour producing a better finished surface than it is possible to plane by any other means now known not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use. The construction and organization of this machine is different from any other now in use. IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 1837

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, where by a Patent may be procured about six weeks earlier he continues to forward them free of expense—to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and of consulting in respect to them, matters, in general, of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

R. H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

John S. Sayward—Editor.

MONDAY, DECEMBER 17, 1849.

EXPENSES AT WASHINGTON —WHAT IT COSTS. We are a hard working money making, and money saving people, and Foreigners say we look at everything through the medium of dollars and cents Why not? Let us glance at the cost of this anomalous state of things in the popular branch of the National Legislature.—The pay to members of the House and Senate is about $2200 per day, to which add the pay of officers, clerks, messengers, folders and other employers about the capitol, also the expenses and we find that the sum of three thousand dollars is consumed daily The House and Senate have been in session eight days including Sunday—members are paid their per diem for Sundays as well as week day—with out having transacted any business for the country, for which the government pays $24,000

☞ The loco press throughout the country, who have strenuously demanding of the Senate the rejection of nominations made by Gen Taylor are likely to be greatly disappointed —Even our neighbor of the Democrat, who, in his efforts to make the case really urgent with the Senate, declared that every officer removed stands charged with want of honesty, capacity and fidelity, will find, quite probably, that notwithstanding the awkward position in which he has placed himself and others of his party, the Senate will not put forth its power for his or their relief

It is the determination of several of the loco Senators to reject no nomination unless for strong and satisfactory objections of a personal character They do not agree to the rule of action furnished them by the Washington Union, and the Bangor Democrat and others of that ilk

☞ Messrs H Long & Brother of New York are now publishing, at twenty five cents a volume in neat style, 'Long's Library of Choice Reading The number before us is 'Mary Schweidler the Amber Witch' a work of fiction so simple, so natural in its relations, so pure in style, and opening up such treasures of the human heart, as to make it attractive and absorbing

These same publishers also issue volumes at 25 cents each of 'Long's Library of Select Novels The volume on our table is 'The Cardinal's Daughter, a historical novel of much brilliancy The plot is laid in the reign of Henry the Eighth and is capitally sustained It is just the work to keep one awake an hour or two later than usual these fine long evenings

The Newburyport Union says that a young lady, an operative in the Globe mill, returning from State street, where she had obtained some millinery on Saturday evening, was insulted by a villian, on Fair street, who grabbed at her person in an indecent manner She instantly laid down her bundle, caught him by the hair of the head, tripped up his heels, placed her knee upon his breast, and gave him a number of blows in the face Before leaving him, she gave him a kick in the seat of honor, at the same time advising him never again to insult a female in the street.

☞ A handful of men, extreme slavery men of the South and a few impracticable Free Soil and nothing else men, have for a fortnight thrown themselves in the way of an organization of the House of Representatives There are just enough of them to prevent a choice by either of the great parties of the country and there they stand—the extremes, yet meeting in their determination and efforts to prevent an organization unless their peculiar and special fragmentary views be made the rule

RIGHTS OF MARRIED WOMEN The Supreme Court of Pennsylvania has decided recently, that a husband has no claim to the possession of any property owned by his wife previous to marriage or which may accrue to her after marriage, and that even the consent of the wife that her husband should have possession of her property, is of no avail while the wife is a minor This decision is based on the law of 1848 which has wrought a radical change in the condition of married females

☞ About all the good deeds in Calais, in the way of village improvements, are begun, continued and ended with the women of that flourishing town. They are now, as we learn by the Advertiser, about holding a grand tea party for the purpose of raising funds to finish a road leading to the Congregational meeting house, setting trees about the church, and erecting a handsome fence

Dr Buckland, the geologist proposes a plan for supplying London with fresh water in any quantity, by means of an open canal, which should receive the rain water from an area of some 2500 square miles, which now flows into the Thames, near Henley

Among the estimates of the Secretary of the Treasury for continuation of river and harbor improvements, we perceive that he proposes for the continuation of the breakwater at Lake Champlain, Vt., $15,000

James A Hicks, Esq recently of Boston, and acting Spanish consul, was lost overboard, off Bermuda, on his passage from New York to St. Thomas, whither he was going with his family for his health

A Washington letter states that Mr James W Johnson of Pennsylvania, has received the appointment of Consul at Glasgow

GREAT FIRE AT CONCORD N H —On Thursday night last, a destructive fire occurred at Concord N H Th[illegible] [illegible]ated in Butterfield's Block, south of the Eagle Hotel, and seven stores [illegible] [illegible] [illegible] [illegible] estimated at $30,000 The building and goods were insured.

The Washington Union says that the Polk administration was of like clock work It certainly did vibrate backward and forward like a pendulum and as the national debt testifies, was going constantly upon tick The people wound it up handsomely last March, but, unlike other clock work no sooner was it wound up than it stopped altogether

Rail Road—Upper Route.

To the Editor of the Whig and Courier.

In my last I proposed noticing some of the reasons why this route should be adopted, and the resources that render it superior to the lower, and in doing this some idea may be derived by comparing the two routes in point of population, valuation, capital, &c., as found by the census of 1840, although this comparison does not hold good on account of the rapid increase of wealth on *this*, and the steady, though not so rapid decrease of wealth on *that* route, which proposition I shall at some time endeavor to show to the public to be correct.

The following shows the aggregate population, &c of the two routes according to the last census

U Route	Pop.	Val.	Capital man'f	Cap in Trade	Mills	Tanneries	Fulling mills
U. R.	15873	1 710 062	375 645	45,391	78	10	12
L. R	9160	735 147	80,675	20,975	24	3	2
Ex	6719	975 8 5	295 [illegible]	25,160	54	7	10

From the above calculation it appears that the valuation of the upper is one and a quarter times greater according to the population than the lower route, for the former gives one hundred and two while the latter gives only eighty dollars to an individual The real valuation of the one is two and a half times greater than the other It will also be observed that the difference in capital mills, &c. is still greater, which tells a better story to the public than I am able to give.

Now while figures show this flattering result to the interests of stockholders and the citizens of Maine, can there exist a doubt in the mind of the public where the road should go?

It is a well established fact that the mere transportation of passengers cannot support a rail road in this State This pays comparatively nothing, and is entirely a secondary object in view It is scarcely thought of in the estimates made of building a road. The leading and principal source of wealth to a road is the agricultural and lumber transportation which the country through which it runs and that in proximity to it will produce 'Tis to the hay, grain stock and lumber that a road from Waterville to Bangor must rely upon for its support And what portion of the State is richer in these productions? What portion has a more prolific soil, or one more highly cultivated than the valley through which this upper route will pass Then in the vast tract of timber lands immediately above the projected route there is almost unlimited wealth There is Piscataquis county with its rich fields, its wealthy farmers, and its forests of pine timbers all of the surplus of which would certainly pass over this road to Bangor, making that city truly the Queen of the East.

How is it with the lower route It is said by the best judges, and I am a witness to the fact, that that tract of country is the most barren and sterile of any part of the State if we except some of the sandy fruitless plains of York county, producing not even a sufficient quantity for the support of its inhabitants and consequently nothing to convey to market except a very small amount of lumber, and as this is all on navigable streams, it will be conveyed to market by water transportation whether a rail road be built or not, as this is the cheapest mode of conveyance

For the last fifteen years this tract of country has been growing poorer, and will continue so to do despite all the rail roads in Christendom Not so with the upper route This has for the same time been steadily increasing in wealth and importance Stock has been improving, farms growing better, people more enterprising with their increase of wealth, lumbering operations are carried on more extensively, manufacturing has become an object, and every thing wears a thriving aspect Now where shall the road go? Shall we adopt the lower survey, the importance of which does not equal the single town of Dexter, and on which there cannot be so much stock obtained for building as there can in that single town? Or shall the road go where every town produces heavy amounts for transportation—where stock will be promptly taken and the road be made to pay handsomely? It remains very much with the capitalists of Bangor to say where the road shall go—whether the upper, the lower or some other route be adopted Then it is for the interest, of Bangor to consider well the resources of each before making a decision The upper route will command the productions of all the northern parts of the State, of Piscataquis county It builds twelve miles of the contemplated road to the Iron Works, and finally it will be the means of making Bangor the great market and principal city in Maine More anon.

SOMERSET

[For the Bangor Courier]

Evening Reflections.

The night, starlit and beautiful, has just shut in The snow-capped hills, rown[illegible] with many a tree, divested by stern winter of its summer garments, loom up at almost every point of the compass as if they were so many guardians stationed by nature to watch around and protect us Upon their gradually ascending sides, here and there a light is seen glimmering forth from some farm or farmer's home—from a home wherein dwell peace, competence and contentment—such indeed as are experienced only in our favored New England Many such homes there are scattered over the bosom of our north-east State

Let those who will talk of El Dorados where avaricious men can heard up gold at the sacrifice of true happiness and everything good—Let those who prefer dreams to reality, talk of fairy lands where man earns not his bread by the sweat of his brow, where mother earth, as if unconscious of the real wants and necessities of man's physical and spiritual nature, or of the recreancy to the Bestower of all his blessings, pours forth with a lavish hand her fruits and flowers Let him who cannot endure the rigors of a northern winter or content himself to cultivate our rugged soil seek a more pleasant land But let him who would leave the philosophy of a true life, who would discover the direct road to true happiness, turn with me to that cottage upon yonder hillside Idleness has no home in that rural mansion Want dwells not there, nor vice, nor superstition, nor ignorance.

Soon as the rays of the morning sun have banished the shadows from the valleys, its inmates, ever industrious, are abroad to their daily labors With the Roman Emperor no one of them can exclaim with anguish, 'I have lost a day.' The well spent day is followed by evening—always a welcome and happy season to the industrious and intelligent laborer. During the day the demands of the body have been complied with, the physical system has been exercised and strengthened by judicious, well directed labor; now the mind must not be neglected. That too must grow apace. As toil sharpens the appetite for knowledge, we find our family at night busily employed in study, or reading. The treasures of history, the lights of science, the gems of poetry and the accumulated wisdom of ages are laid up in the storehouse of the mind, stamped in ineffaceable letters upon the tablets of the understanding.

Knowledge is power everywhere and under all circumstances, but nowhere is the power generated by knowledge so available as when possessed by the laboring portion of the community—the bone and muscle of the nation—Knowledge has its practical uses, and when obtained by the laboring man, its advantages are justly appreciated

Hence the practical wisdom of our greatest philosopher, Franklin, has earned for him laurels fresher and more enduring than any the university could have imparted, or popular favor could have bestowed Many of our greatest Statesmen of the present day have been actors in scenes like the one I am now contemplating—toiling by day, and studying by night. Clay, Corwin, and Greeley are names not unfamiliar to any of us The foundation of their greatness was laid while their hands were hardened by honest labor for their own sustenance. Hence their zeal to protect the free labor of the nation, to encourage industry and to uphold and sustain the hand that toils Hence their patriotism and devotion to right.

But I must not delay to cite other instances, for I perceive, glancing my eye around, the lights, one by one vanish from my sight. The cottages will soon be silent as deserted castles, and their inmates rest in peaceful slumbers—Bright visions of the night will present themselves in pleasant dreams There we will leave them undisturbed.

The Hungarian Patriots in Exile.

A MOST DEPLORABLE PICTURE.

From a letter in the London Times, dated at Temesvar, we copy the following heart-rending account of the sufferings of the Hungarians in banishment It will move a heart of stone

Last Sunday arrived the miserable remnants of the exiles, and were quartered in the Fabrik and Josephstadt. I went out to see them, and a more deplorable spectacle could scarcely be presented Pale, thin, and diseased, with rags on their backs, and the toes sticking out of their shoes, they were the very ideal of misery—one with a patched soldier's great coat, another with the remains of an officer's braided surtout, minus the elbows and collar, their appearance excited compassion,—for most of these poor creatures were incapable of forming any political opinion, and were swept hither and thither on the crests of billows over which they had no control

As their march was performed on foot from Orsova, your intelligence from Widdin must be much fresher than any they brought here—Conversing with the officers, they told me that the offers to induce them to embrace Islamism were very pressing [illegible] wished them to form a military colony on the Lower Danube which he offered to organize. Canada was also proposed to those who did not like Danube, with two chibuks to each officer, but of the force of 3,540 Hungarians, 900 Poles, and 300 Italians, only 240 embraced Islamism, mostly Russian Poles, who preferred anything to Siberia.

One poor devil, to whom the knout was more formidable than the terrors of Munker and Nekur, was one day unconsciously eating a piece of Bologna sausage, when a Turk, by a sharp box in the ear which knocked his cap off his head, reminded him of his new faith—Kossuth, it appears, had shaved off his large beard so as to be scarcely recognizable He was always in good spirits, and killed time with cards, which after so active a life, hung heavy in a place like Widdin.

The war is ended, but it will be long before the Banat recovers itself in consequence of the *bellum in bello* of race against race, in addition to that of the large armies. I have seen several villages a mile and a mile and a half in length, with every house and farm-yard a prey to the flames, and yet, here the inhabitants have again began to dwell. Necessity is the mother of invention, and one cannot help admiring the ingenuity with which the black rafters of outhouses have been used along with branches of trees, remains of agricultural implements, and straw to construct roofs. As for windows, they are not to be thought of, but how the poor creatures are to hold out the winter cold, I cannot conceive Inspite of the bombardment of Temesvar, the Opera is reopened, and Donnizetti's *Belisario* is to be given this evening for the benefit of the town hospital. Success attend it!

Advertising.

We were impressed when a boy with the benefits of advertising It was our wont in early life to read the newspapers through, advertisements and all, until we became as familiar with them as with our alphabet. The Enquirer was our family paper, which made us acquainted with the leading firms in Richmond, and the different kinds of merchandise offered for sale. The second visit we made to Richmond was as the juvenile companion of a wealthy old gentleman of the neighborhood in which we resided, who paid our expenses for the pleasure of our company. Well do we remember in pacing the brick row (as it was called in former times) and reading the signs, that household words were not so familiar as the names of the leading merchants of Richmond. The old gentleman (our companion) wanted an article not in common use—he was ignorant where it could be bought, when we told him the house, and the merchant by whom it was offered for sale, information which we had gathered from an advertisement in the Enquirer He repaired to the establishment, bought that article, and many others Ten years afterwards we heard the same merchant say that the same old gentleman had continued a trade with him from the period of their first acquaintance until that time to an amount never less than $500 per year—all of which was the result of one advertisement. Yes, $50 expended in yearly advertisements is better than an additional capital of $3000 It gives a merchant respectability, makes him known to the public, and secures for him a trade which he could not by other means have acquired.—Fredericksburg News.

☞ The Piscataquis Congregational Conference will be held at Brownville, on the 18th of December

☞ We learn that on the 12th inst. as Mr. Appleton Herrin of Exeter was going into the woods with a team to Namakanta, he slipped, and the sled passed over him killing him instantly.

☞ Constable Walker on Saturday brought up Hugh Donty before the Police Court for stealing a pair of boots from the store of F. Lambert. Fine and cost imposed $9,88 which Donty paid and walked off.

☞ A thaw commenced here yesterday, which will soon destroy the sleighing.

DIET OF THE ANCIENTS —The difference between the diet of the ancients and that of us moderns, is very striking. The ancient Greeks and Romans used no alcoholic liquor it being unknown to them, nor Coffee, nor tea, nor, chocolate nor sugar nor even butter, for Galen informs us he had seen butter but once in his life They were ignorant of the greater number of our tropical spices, as clove, nutmeg, mace, ginger, Jamaica pepper, curry, pimento. They used neither buckwheat nor French beans, nor spinach, nor sago, tapioca, sallid, arrow-root nor potato or its varieties, nor even the common, but a sort of marshgrown bean, nor many of our fruits, as the orange, tamarind, nor American maize On the other hand, they ate substances which we now neglect—the mallow, the herb ox-tongue, the sweet acorn, the lupin They liked the flesh of wild asses, of little dogs, of the dormouse of the fox, of the bear They ate the flesh of paroquets and other rare birds, and of lizards They were fond of a great many fish and shell fish, which we now hold in no esteem. They employed as seasoning rue and assafœtida —[*Dick's Diet and Regime*

SLAVES IN WASHINGTON. It is not an uncommon thing in Washington for slaves to purchase their freedom, or as they express it, "*buy themselves*" Some of them obtain employment in the different Departments, and being liberally paid, lay up enough capital to purchase tools—the their hands—and commence business in the world on their own hook Their owners generally make no objections to this, and are often glad of it. A free negro in one of the Departments, where he acts as messenger, lately paid $200 towards the purchase of his brother, belonging to an estate which would be closed up the first of October The price asked was $500 He had planked the two hundred—a gentleman of respectability was ready to lend $200 more, and it only required $100 before the 1st of October to complete the bargain. A paper was circulated, and during the first day forty to forty five dollars was collected in small sums —[N Y Tribune.

RUMORED ATTEMPT TO ASSASSINATE THE POPE. It is stated in some well informed Italian circles that a conspiracy had been just discovered in Switzerland The conspirators are Italian refugees, and the object was is said to assassinate the Pope The alleged assassins were to have passed through France on their way to Italy, and it is added that orders have been given by the French Government to look carefully at all passports.

BY THE LAST MAIL.

Congress.

WASHINGTON, Dec 14.

The Senate met, but transacted no business. A motion to adjourn over to Monday was lost.

In the House, Mr. Hilliard made a speech, in which he said, that when the time came to dissolve the Union, it would be done by the people themselves.

Mr Ashmun offered a resolution to vote *viva voce* for Speaker, and if on the first call of the roll no person should have a majority, the roll should be called again, and the one who should receive the highest number of votes, provided that number was not less than one third of the whole number, should be declared elected

Mr. Woodward offered resolutions to the effect that Mr Boyd be chosen Speaker *pro tem*, and the House proceed to elect Sergeant at Arms and other necessary officers, and then ballot for Speaker He earnestly pressed the importance of organization He was fearful lest yesterday's scenes should be re-enacted

Mr. Williams, of Tenn desired organization or dissolution The question between the North and the South would be interminable—He proposed, after the adoption of his resolution to proceed to vote *viva voce*, drop two lowest candidates, vote two highest, and thought four or five trials would answer

Mr. Root opposed them all

Andrew Johnson favored Mr. Ashmun's resolution. He said it was similar to one he introduced some days since He considered it as offering the only chance to succeed in electing a Speaker He accused Mr Winthrop of acting unfairly towards the South in the appointment of Committees when Speaker

Mr. Winthrop briefly responded.

Mr Johnson resumed He disapproved of Mr Holmes dodging about during the balloting Why did he not support Mr Winthrop now?

Mr Holmes said he was perfectly satisfied with what he had done towards placing Mr Winthrop in the chair at the commencement of the last Congress He considered him a gentleman

Mr Johnson asked why he did not do so again?

Mr Holmes was understood to say, the question is not a fair one. He said his State was holding back for others to speak. When the time comes, she will be most forward to act.—He said that he approved of Mr. Toombs's remarks, but voted for Mr. Winthrop from personal considerations

Mr Johnson said, if the South was trampled upon, the whigs and democrats would plant themselves on the southern end of the constitution as their helmet and shield

Drummond Candlestick.

THE novelty of the idea [illegible] making a wick [illegible] ing your own candle by simply turning the bottom of the Candle tick seems to require a statement of a few facts in regard to the properties of tallow and tallow candles, not generally known

The hardest tallow, when subjected to a kneading process, becomes plastic This fact was discovered by the gentleman whose name has been given to this Candlestick

It is generally supposed that a tallow candle must run or drop because it is tallow This is a mistake The dry wick, by absorbing a part of the melting material together with the consumption prevents running or drooping, *hence the advantage of the Drummond Candlestick* It makes and wicks it own candles out of tallow, lard or other substance of which cheap candles are made simply by pouring in the melted grease into the lower chamber of the Candlestick and by the action of the Screw turns out a candle smooth hard and of any desired length The paramount advantage is that the light can always be kept near the object to be seen, the candle, if desired always the same length

Its economy —The trouble of filling being less than a Lamp, inasmuch as it only requires to be filled once in six days' allowing it to be burned four hours the usual time in which artificial light is required,—you have a candle at the low price of one cent per night

It is with the most heartfelt satisfaction, and with gratitude to God, that I have the privilege of stating to the community and to all who have known me for years, that by the application of the rule of Dr. A. C. Forbes, I have received, as I firmly believe, a perfect cure from stammering. I have been afflicted, as hundreds in this region can testify, from a child, with this habit, and so bad at times as to be almost unintelligible. But in five minutes after comprehending his rule, I was perfectly free to speak and converse with ease, and I would urge all who are so afflicted to make application to him.

His method is perfectly easy of application, and I firmly believe it to be an infallible remedy.

To all who try it, I say persevere in its application, as you would to correct any other bad habit, and it will not fail you. MASON H. WILDER.
Attest,—H. N. LANCASTER,
American House, Belfast.

Dr. FORBES is eminently successful in his cure of Stammering. No other evidence is needed of that fact, than the certificates of four of our leading physicians in the city, which we append. He has remedied some very afflictive cases—and in this respect is truly a benefactor. The following certificate is conclusive, as to the efficiency and simplicity of his system.—[Argus of Oct. 1 th.

The undersigned having witnessed the successful results of the application of Dr. Forbes' principles for the cure of Stammering, cheerfully bear testimony both to the simplicity and entire efficiency of his system.

The undersigned, having been afflicted from childhood with stammering and hesitancy of speech and having received great relief, and as he believes, a perfect cure, under the simple treatment of Dr. A. C. Forbes, now of this city, would most cheerfully recommend him to all who are afflicted in like manner. C. M. HARRIS.

On Wednesday we witnessed a wonderful cure of Stammering, by Dr. A. C. Forbes at the American House. We have perfect faith in his ability to cure the worst cases, and advise all the afflicted to give him a call.—Belfast Republican Journal, Nov. 9th, 1849.

MR. AMES'S CASE.

A MACHINIST IN THE BOSTON LOCOMOTIVE WORKS.

BOSTON, January 12, 1849.

MESSRS. REDDING & CO., 8 State Street—Gentlemen—It is now about 14 months since I commenced spitting blood and raising bloody matter, accompanied with a disagreeable cough and pain in my side. After employing doctors of good standing, without avail, I was induced to try DR. SCHENCK'S PULMONIC SYRUP, of which I took as many as half a dozen bottles, which I bought at your office in State Street, and found it benefitted me greatly. Two months since, however, I caught a severe cold, and the symptoms above described re-appeared with more severity, insomuch that I was forced to give up my business altogether. This time the doctors thought mine a very serious case; my friends considered me in extreme danger, and they recommended a journey South. Happening in conversation with your book keeper, to mention this circumstance, he suggested to me to go on to Philadelphia, and see Dr. Schenck, which I did, and was fortunate enough to interest the doctor in my case. He held out hopes of speedy cure. He took me to his house where he gave me a number of bottles of this Syrup, until a gathering appeared on my side, which ripened and discharged a great quantity of matter. From that moment I gained daily. I have returned to Boston, where I give to you this statement convinced of the benefit of the medicine, which under God's providence, has restored me to health again. For Dr. Schenck's hospitality and unremitting kindness to me, I can, perhaps, make no return better than this statement. If you publish this statement, it may meet the eye of some others who, like me, have suffered all but death from consumption, or diseases in the shape I have described, may be induced to avail themselves of the virtue and realize the full benefit, as I have.
J. R. AMES.

We, the undersigned, are acquainted with Mr. Ames, and know this statement to be true, and the signature genuine. REUEL HOUGH,

Letter from a Boston Clergyman.

BOSTON, November 1, 1848.

Messrs. Redding & Co.,—Gentlemen—Having had occasion to speak in public nearly every night, for several weeks past, (sometimes in the open air,) and having used your Schenck's Pulmonic Syrup, I cannot deny myself the pleasure of tendering to you this voluntary tribute to the worth of that article. I have now proved it in various ways, and feel entire confidence in commending it to public speakers, and all persons afflicted with coughs, colds, hoarseness, and difficulties of that description.

You are at liberty to use this unsolicited statement in any way that will relieve the sufferings of humanity. Truly yours,
CHARLES W. DENISON,
Editor "American Signal."

The proprietor respectfully offers his original Pulmonic Syrup to the public as a cure for Coughs, Colds, Consumption, Dyspepsia, Liver Complaint, Palpitation of the Heart, and Scrofula. It has been before the public upwards of twelve years, during which time scarcely a single individual has used it without finding relief. It has succeeded in cases where all other remedies had failed, and the proprietor conscientiously believes, from its great success, that it is the best remedy for these diseases ever discovered. Having devoted the whole of his attention, for the last sixteen years, to the treatment of Consumption, Liver Complaint, Dyspepsia, and all diseases of the Lungs and Respiratory Organs, he points to his great success, as a sufficient guarantee to the public of his skill and ability. He denies that the disease is incurable, and adduces the foregoing testimony in proof of his position. His unprecedented cures are based solely upon the merits of his PULMONIC SYRUP, and avoids the use of Opium and other narcotics, which are only administered to relieve, but never to cure the patient.

THIS is the season for the above complaints, and there is no Medicine equal to the "Great American Remedy for Colds, Coughs, Asthma, and all diseases of the Chest and Lungs," for the cure of them.

It has done wonders with Children, in cases of Croup, and with Adults, in cases of dry hacking Coughs, which lead to Consumption. It has been tested and is highly recommended by some of the first Physicians in the country. No family should be one day without it.

Wilder's Salamander Safes.

☞The Following Letter from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—

BANGOR, Oct. 24, 1849.

John E. Wilder, Esq.—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph office, in this city. It was in the fire six hours; the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS. EDDY.

LATEST AND BEST

....IMPROVED....

Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor.

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads, which shall be elastic and have all the advantages of a Slat, or Sacking Bedstead, while at the same time, it serves to secure the posts and rails compactly together, without other aid. It can be fitted to any Bedstead, old or new, with much less time and labor than is required to put in a cord, and when fitted, gives great strength and support, and keeps the Bedstead in proper shape. It cannot be doubted that this simple improvement, will, when known, take the place of every other method now in use. We can confidently recommend the above improvement to our customers and to the public, as the cheapest, most substantial and best Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL,

Another Life Saved.

Read the following letter from a Clergyman of Camden Me to the Editor of the Gospel Banner

DOWN'S ELIXIR,—A CURE.

BR DREW—Being anxious to do good to my fellow beings, as I have means and opportunity I wish to state, through the Banner that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding which created a dry hard cough My appetite failed my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner I procured a bottle and commenced taking it, and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed I used other kinds of patent medicines, but with no good effect seven weeks I continued gradually to sink under my disease at the expiration of which time I was extremely weak my skin dry and husky, and my feet and hands cold most of the time. I had a dull heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick white fur, bowels very irregular and costive hectic fever night sweats, dry, hard cough, difficulty of breathing and low spirits. My stomach at this time was so sore and weak that it was with difficulty I could stand erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR —And to my great joy and the greater joy of my friends I found that the use of it a few days had regulated my bowels equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number and have never known it to fail of doing good where the directions were followed

I have given it to my children in colds and in a case of measles, and it has proved all it is recommended to be

I therefore cheerfully recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J L TUTTLE

Camden August 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty

2d It is perspirative It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach— gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles and proves ALL IT IS RECOMMENDED TO BE"

PERFECT HEALTH,
A LIFE SAVED.

Most Wonderful Cure of a man 80 years of Age

In the month of November, 1846, I was attacked with inflamation in my great toe, which soon broke out in a running sore *Mortification ensued* and the first joint of my toe *came off.* At this time I was under the care of the best physician in the county—every remedy had been tried but without any help The agony of pain I endured no one can imagine, the disease ran up my leg to my thigh and had become so bad that my physician despaired of ever being able to cure me, and after four month's confinement to my bed, finally told me I *must prepare to die*—that as soon as the warm weather set in my leg would mortify and death ensue I gave up in despair One of my friends brought me a bottle of HUNT'S LINIMENT, which he said would relieve the pain I applied it and the effect was wonderful, it seemed as if new life was put in me. In using one bottle the whole appearance of my leg changed to its natural color the pain left me, and two 50 cent bottles entirely cured me, to the astonishment of myself and the whole neighborhood *Hunt's Liniment saved my life* I am 80 years of age, and make this public that every human being may know the value of this great medicine

Extraordinary case of Hip and Spinal Disease

SOMERS WESTCHESTER CO., N Y, Aug 27, 1848

Gent—It is with sincere pleasure that I make known to you the great benefit I have derived from the use of Hunt's Liniment About 6 years ago I was injured by a horse, in the HIP and SPINE so badly that I could not move without the aid of Crutches.

I grew gradually worse for *Four Years* although under the care of two successful Physicians who finally gave up my case as hopeless My Hip gathered and broke and continued a running sore, and I was suffering with such severe pains that I could not rest or sleep At this stage of the disease I commenced using Hunt's Liniment, which at once gave me relief I used about 20 Bottles during the past year, the sore entirely healed, I am free from pain and only use a cane in walking I think the use of your Liniment saved my Life and has made me comparatively a well man My whole neighborhood can testify as to my sufferings and the cure. Yours truly,

BARNABUS BEADLE

ENOSBURY FALLS, VERMONT March 19 1849

SIR—The demand for your Liniment has increased rapidly of late it has been used with great success in SPINAL complaints. A neighbour of mine was completely disabled from pains in the back, and the use of a large bottle of Hunt's Liniment completely cured him and he is now in his usual health, this is only one of many cases, that have occurred in this neighborhood

Dr. Townsend's
COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates diseases it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood,* a power possessed by no other medicine And in this lies the grand secret of its wonderful success — It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15 000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c , have been and can be cured

SPITTING BLOOD.

New York, April 28, 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and I did not expect to live — I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,
WM RUSSELL 65 Catharine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847.

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb Costiveness, Piles, Leucorrhea or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness — It will not be expected of us in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life,*" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon childbirth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Despondency Heartburn, Vomiting Pain in the Back and Loins, False Pains Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe. This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied, are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females,* &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended theirs, although previously they did not A number of these Mixtures, Pills &c are injurious to females as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores have taken only four bottles it took them away for which I feel myself under great obligation

Yours respectfully
ISAAC W CRAIN 106 Wooster st

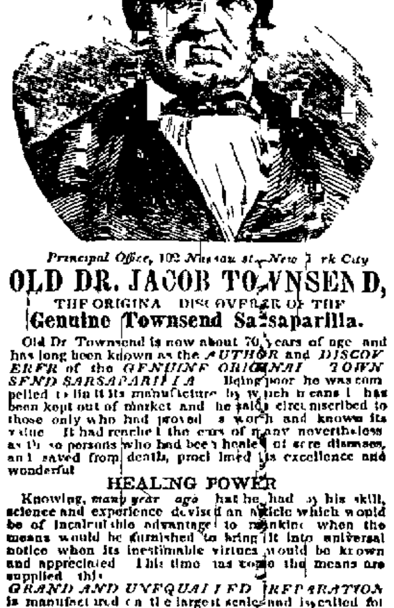
CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man, of the name of S P Townsend and uses his name to put up a Sarsaparilla which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla having on it the Old Dr's likeness his family coat of arms and his signature across the coat of arms



Principal Office, 102 Nassau st., New York City

OLD DR. JACOB TOWNSEND,
THE ORIGINAL DISCOVERER OF THE
Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER

Knowing, *many years ago* that he had, by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others, which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process*, known only to those experienced in its manufacture Moreover, these *volatile principles*, which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid, sweeten with sour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA,

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA and LIVER COMPLAINT, and in RHEUMATISM SCROFULA PILES COSTIVENESS all CUTANEOUS ERUPTIONS PIMPLES, BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs,* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat, and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed* or *Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions, and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia, St Vitus Dance Swooning Epileptic Fits Convulsions* &c.

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions, and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES *souring fermenting,* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence, heartburn palpitation of the heart liver complaint diarrhœa dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours, and thus spoils all the fluids of the body, more or less! What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING ACID "COMPOUND" OF S P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla,* is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P, Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P. Townsend's FERMENTING COMPOUND

We wish it understood because it is the *absolute truth,* that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven-wide apart* and *infinitely dissimilar* that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience, its

Transcendent Power to Heal.

DR STEPHEN JEWETT'S
Justly and Highly Celebrated
Family Medicines,
Used by Physicians of high Standing,

Prepared by STEPHEN JEWETT, son of the late *DR STEPHEN JEWETT of Rindge N H*

IT is not pretended that ANY ONE of these Medicines will RELIEVE OR CURE EVERY DISEASE ALL REASONABLE PERSONS KNOW NO SINGLE ARTICLE CAN ACCOMPLISH SUCH RESULTS But it is TRUE EACH of these medicines by thorough trial will be pronounced to have NO SUPERIOR OR EQUAL FOR RELIEF and PERMANENT CURE of those diseases for which they are recommended as they have been tried, and proved by their continued use for the last fifty years by NUMEROUS FAMILIES and PHYSICIANS to be TRULY FAMILY MEDICINES and pronounced to be ALL the MEDICINES ANY PERSON or FAMILY can require, unless in very extraordinary cases Their power over disease has *not been excelled—if equalled* —as numerous cures attest where skillful physicians have failed to produce relief

ALL CAN BE CURED, WHO WILL USE THEM AS DIRECTED, IF WITHIN THE POWER OF MEDICINE

Dr. Stephen Jewett's Celebrated
True Health Restoring Bitters

These Bitters remove all morbid secretions purify the blood, give great tone and vigor to the digestive organs, cure diseases that already exist fortify the system against all future disease can be taken with safety—at no time debilitating the patient being grateful to the most delicate stomach, and remarkable for RELIEVING INVIGORATING, STRENGTHENING and RESTORATIVE PROPERTIES, and an invaluable and sure remedy in

Liver Complaints, Jaundice,

Dyspepsia, Flatulency or Wind, Costiveness Faintness, Pain in the Side Bones or Joints Disorders of the Skin Liver and Kidneys, Relaxed Bowels, Loss of Appetite, Unnatural Appetite, Sleeplessness, Depression of Spirits Piles, Humors, Worms, Sinking and Fullness or Weight at the Stomach, Nervous Headache and every form of Indigestion, Nervous Irritability, Coldness Drowsiness, Wandering Pains, Palpitation of the Heart, Scrofula, St Anthony's Fire, Salt Rheum, Canker, Cancerous Sores, incipient Consumption and all other diseases caused by an impure state of the Blood, Liver, &c , or which tend to debilitate and weaken the system

To FEMALES who suffer from a Morbid and Unnatural Condition, and who seem threatened with CONSUMPTION, this is a Medicine of Inestimable Value It is an *Excellent Remedy* in SUMMER COMPLAINTS, and a *Great Preventive* of FEVERS.

Dr Stephen Jewett's highly Celebrated
Pulmonary Elixir.

This Elixir contains many of the most highly approved cough or expectorant medicines, recommended by the United States, London and Edinburgh Colleges of Health, but being peculiarly and fortunately combined, is truly wonderful in its good results *Particularly should this Medicine be in every Family where there are* CHILDREN as the delay incident to procuring a Physician has often proved fatal to those whom *timely assistance would have* SAVED

This Elixir will prove itself to excel any thing as a sure remedy in

Consumption of the Lungs, Coughs,

Colds; Sore Throat, Influenza, Asthma, Bronchitis; Quinsy, Croup, Whooping Cough, Difficulty of Breathing, Pains in the Side or the Breast, Soreness of the Chest,
Distress when lying upon the side,
producing Choking or sense
of Suffocation, &c , &c

Dr Stephen Jewett's Justly Celebrated
Strengthening Plaster.

This Plaster is composed of quite a number of vegetable substances, peculiarly compounded — There never has been, and there is not at the present time, a better plaster made for the various purposes for which plasters are used It Has no SUPERIOR for removing

Pain, Internal Inflammations,

Rheumatism, Gout, Swollen or Weak Joints Limbs or Cords, Lameness Cramp, Pains or Weakness in the Side Back or Breast
Weak Stomach, &c , &c, and
when used in
LIVER AND PULMONARY DISEASES,
will prove very beneficial to those suffering with such complaints

Extract from a letter of an eminent physician in Worcester Co Mass , a member of the Massachusetts Medical Society

WINCHENDON, Jan 15, 1849

"Dr, Stephen Jewett

Dear Sir,—I have used your *Health Restoring Bitters* in my practice and have found them very serviceable in *Dyspepsia Humors General Debility,* and particularly in *Habitual Costiveness* I consider it one of the best remedies in use Yours &c

IRA RUSSELL M D"

From one of the most eminent physicians in the State of New Hampshire

TEMPLE, N H Jan 7, 1849

"Dr S Jewett

Dear Sir —I have examined your *Pulmonary Elixir* and am well satisfied that it *merits the full confidence* of the community, as being what it purports to be an efficient and *safe* remedy for *all* the diseases to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose, inasmuch as the danger of impaired action of those organs, the frequent and legitimate result of most other remedies of this class by reason of *their opiate character,* is, by *this, entirely* obviated

The physician who should meet with it in families would find it a *ready assistant,* by which his own labor in the dispensation of medicine would be obviated and his efforts for relief essentially aided

With much consideration, your obed't servant

PORTLAND Me , April 21, 1849

Dr Stephen Jewett

Sir,—Having used your *Health Restoring Bitters* and *Pulmonary Elixir,* to a considerable extent, in my family, for the past winter, I would beg leave to bear testimony as to the efficiency of those medicines, the former for *restoring loss of appetite, for headache, languor and general debility* the latter for *coughs and sore throat.*—In fact, I think *no family should be without these restoratives always at hand* thereby frequently *superseding* the *necessity of calling in a physician.*

Your ob't serv't CALEB S CARTER.

From George W McLellan, Esq formerly a distinguished citizen of Maine now of the city of Boston

BOSTON Mass , May 3, 1849

Dr Stephen Jewett

Sir—I have used your *Pulmonary Elixir* in my family for a year or more, and it has proved *decidedly the best cough medicine I have ever known* I therefore most heartily recommend it to all who may require such a medicine Respectfully yours,

GEO W McLELLAN
